

Ifigenia Kagalou , email: ikagkalo@civil.duth.gr

Professor, Division of Hydraulics, Department of Civil Engineering, School of Engineering Democritus University of Thrace. She holds a BSc in Biology, Department of Biology, Aristotle University of Thessaloniki 1990 with a PhD Thesis, in "Study of the relationships between physicochemical health control factors and the total microbial flora of aquatic ecosystems. Application in Lake Pamvotis", Medical School, University of Ioannina. Postdoctoral Studies & Training Clyde River Purification Board-Univ. of Glasgow-ENGLAND Centre of Water Research, Univ. of Western Australia, Perth Australia Pannon Agricultural University, Hungary International lake Env. Committee, ILEC, Denmark European Environmental Research Institute Adams Mickiewski University, Poznan, Poland.

Professional & Academic Experience 1994: Executive of the Municipal Water Supply and Sewerage Company of Ioannina 1997: Professor at the Technological Educational Institute of Epirus (Area of Specialization: Aquatic Ecosystems) 1999-2002: Professor at the Department of Applied Agroecology of the University of Ioannina. 2001-2006: Adjunct Professor P.D./407, Department of Biological Applications & Technologies, University of Ioannina (Subject: Water Ecology - Limnology) 2010: Assistant Professor, Department of Agriculture, Ichthyology and Aquatic Environment, University of Thessaly (Government Gazette, 466/7-6-2010) on "Hydrology-Potamology-Limnology" 2012 – today: Professor, Department of Hydraulic Works, Department. Civil Engineering, School of Engineering, Democritus University of Thrace.

Scientific publications in international journals. Member of the National Scientific Committee of Experts for the European Water Framework Directive (2000/60/EC) - Special expert on behalf of the Special Secretariat for Water at the European Commission - Participation in European projects related to Water Management. Member of the Blue Med/ Eusair initiative for marine strategy in the Mediterranean Positions of Responsibility & Experience in Human Resource Management - Director of the Laboratory of Hydrology & Hydraulic Works, Department. Civil Engineering, School of Engineering, Democritus University of Thrace - Member of the Board of Directors of the Hellenic Society for Water Resources Management - Member of the Research Committee, Democritus University of Thrace.
